INFORMED CONSENT

I hereby request and consent to the performance of acupuncture and other procedures within Dr Danchak's scope of practice on me (or on the patient named below, for whom I am legally responsible) by Dr Danchak and /or other licensed doctors of acupuncture working or associated with or serving as back-ups for Dr Danchak, whether signatories to this form or not.

I understand that methods of treatment may include, but are not limited to: acupuncture, cupping, electrical stimulation, Chinese herbal medicine and nutritional counseling. I understand that herbal formulas prepared by Dr Danchak may be needed for my treatment and come at an additional cost. Please always feel free to text Dr Danchak if you have questions about your herbs.

I have been informed that acupuncture is a generally safe modality, but that it may have some side effects, including bruising, numbness or tingling near the needle sites (which may last a few days), and dizziness or fainting. Bruising is a common side effect of cupping and usually go away after a few days. Very unusual risks of acupuncture include spontaneous miscarriage, nerve damage and organ puncture including lung puncture. Infection is a possible risk, although we use sterile, disposable needles and maintain a clean environment. Other side effects not mentioned here may occur. Herbal formulas from plant, animal and mineral sources are traditional and considered safe in Oriental Medicine, although some may be toxic in large doses. Some herbs may be inappropriate during pregnancy. Possible side effects of taking herbs are nausea, gas, stomach ache, diarrhea, and rashes (we see this in less than 10% of patients and they usually go away in a week or so).

I will notify Dr Danchak if I am or become pregnant.

I don't expect Dr Danchak/staff to be able to anticipate and explain all possible risks and complications of treatment, and I wish to rely on Dr Danchak/staff to exercise judgment during the course of treatment which he/they think are in my best interest. I understand that results are not guaranteed.

I understand Dr Danchak/staff may review my patient records and lab reports, but all my records will be kept confidential and will not be released without my written consent.

By voluntarily signing below, I attest that I have read the above consent to treatment, have been made aware of the risks and benefits of acupuncture and other procedures, and have had an opportunity to ask questions. I intend this consent to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.
